New York, Dec 12—Absence of any news affecting stocks to-day checked the advance and reduced the volume of trading. Some fractional improvement was seen here and there, but few stocks got above the high prices recorded immediately after the flood of good news came on Monday. The market was sirong nevertheless.

Specialties were prominent. Sharp advances were recorded in National Biscuit, New York Air Brake, General Electric, and Western Union. Pacific Telephone, American Woolen preferred, and American Locomotive were other specialties to advance. United States Rubher was more active than usual, and touched its previous high point.

Canadian Pacific opened with a sharp advance, but sold off easily on liquidation from Canada.

Money continued easier.

One of the independent steel companies that was prominent in price cutting sensit hat was prominent in price cutting sensition for the same period. This rush of orders besan when the trade learned definited that prices were to be advanced. The

Boyle Awarded Contract.

John J. Boyle, a New York sculptor,
was awarded the contract for the erection of the Commodore Barry status in
Franklin Park, for which Congress appropriated \$50,000 in 1988. A long delay

selection of a design by the Harry status
commission, which originally accepted a
design by Andrew O'Connor, of Paris, in
1909.

About a year later this design was rejected, and Mr. Boyle asked to submit a design, which was finally accepted, with a few changes. The statue will be creeted on a knoll on the Fourteenth street side of the park.
